

Ram Gopal

Professional Summary

Results-driven Full Stack Developer with expertise in MERN, MEAN, and .NET technologies, including Angular and TypeScript. Experienced in both front-end and back-end development, with a strong foundation in JavaScript, TypeScript, and C#. Adept at creating responsive, scalable, and user-friendly web applications. Proficient in agile methodologies and committed to delivering high-quality software solutions.

Key Skills

Languages	JavaScript, TypeScript, C#, HTML5, CSS3, SASS
Frontend	Angular, React, Vue.js
Backend	Node.js, Express.js, ASP.NET Core
Databases	MongoDB, MySQL, SQL Server
Tools & Technologies	Git, npm, Webpack, REST APIs, GraphQL
Other	Agile Methodologies, CI/CD, Responsive Design, Cross-Browser Compatibility

Professional Experience

2024 – **Software Developer**, *Amlino Technologies Pvt Ltd*, New Delhi, India

- Present
- Developed and maintained scalable web applications using Angular, React, and Node.js.
 - Implemented state management solutions using NgRx and Redux.
 - Integrated RESTful APIs and GraphQL to handle data fetching and manipulation.
 - Designed and developed reusable components and services across frontend and backend platforms.
 - Conducted unit, integration, and end-to-end testing using Jasmine, Karma, and Jest.
 - Collaborated closely with UX/UI designers, product managers, and backend developers to deliver features on time.
 - Participated in agile ceremonies including daily stand-ups, sprint planning, and retrospective meetings.
 - Ensured code quality through code reviews and provided constructive feedback to team members.

Projects

- | | |
|----------------------------|--|
| E-Commerce Platform | <ul style="list-style-type: none">○ Developed a full-stack e-commerce application using MERN stack (MongoDB, Express.js, React, Node.js).○ Implemented user authentication, product management, and payment integration.○ Applied responsive design principles to ensure compatibility across devices. |
| Employee Management System | <ul style="list-style-type: none">○ Created an employee management system using MEAN stack (MongoDB, Express.js, Angular, Node.js).○ Built features for employee tracking, performance evaluations, and reporting.○ Utilized Angular Material for UI components and Bootstrap for responsive design. |

- Online Learning Platform
 - Developed an online learning platform with .NET Core and React.
 - Integrated features for course management, user enrollment, and progress tracking.
 - Used ASP.NET Core for backend development and RESTful APIs for data interaction.

Education

2019 – 2023 **Bachelor of Science in Computer Science**, *Dr. A.P.J. Abdul Kalam Technical University*, Lucknow, U.P

Certifications

2023 Certified Angular Developer – Amlino Technologies Pvt Ltd

Languages

English Fluent
Hindi Native

Additional Information

Interests Open source contributions, Tech Meetups, Coding Challenges
Volunteer Work Mentored junior developers in coding and best practices through community workshops.
